ABOUT US

We aim to provide expert advice and quality investment ideas.

Investing now available to everyone.

At Neviusfinance, we see investing differently. Today's financial system is complex, exclusive and expensive, making it hard for the typical person to start investing. So, we're building a platform without digital walls and complex barriers. A platform that empowers you to see new possibilities for your money - and helps make them a reality. Our goals since day one was to reimagine what it means to invest, by making simple, easy-to-use financial products for everyone.

The foreign exchange market is a global decentralized or over-the-counter market for the trading of currencies. [learn more](#)

REAL ESTATE

Real estate is property consisting of land and the buildings on it, along with its natural resources such as crops, minerals or water; [learn more](#)

MINING

WHAT'S THE INCENTIVE FOR MINERS?

It all comes down to trust: Miners keep the blockchains trustworthy and are rewarded for their efforts.

As miners, we are processing and verifying the transactions of the cryptocurrency ecosystems and keeping their public transaction history (Blockchains) maintained and secure. For this, the mining community is rewarded with the networks' transaction fees and newly created coins. It's a win-win situation! When you start mining with us, you are getting your share of this reward.

HOW IS BITCOIN KEPT SECURE?

The only way to not create money out of thin air or corrupt it, is to burn real energy. This is called Proof-Of-Work.

Today, bitcoin is the most secure computer network on the planet and it's practically impossible to break it! The reason for that is hash power, the umbrella term used for the computing power that miners provide to the bitcoin network and similar cryptocurrency networks. Due to the rapid growth of the ecosystem, mining operations today are mostly running with specialized high-performance computers that function most efficiently set up in large data centers.

INVESTMENT PLANS FOR YOU
